Discussions From minutes of last AGBM

- Dr. Ashok Reddy said that members from IPSTSB should represent at TSMC and letter to that effect should be written to TSMC. Dr. George told to that such letter was written, Dr. Ashok Reddy said reminder letter should be sent. Dr. Ashok Reddy Sir reminded 50% amount due.
- We have received letters from IPS directly but we should have received letters from south Zonal branch of IPS.
- IPS national conference article 8 state branch should make clear zonal branch. Anything should through south Zonal, IPS should not communicate directly to IPSTSB.
- Dr. Ashok Reddy sir said that he was pained by such actions by some branch members acting—by the branch trying to control IPSTSB through IPS national, giving bad name to the branch and it should be condemned.
- Dr. Naresh said that in PGCME 2018 June 30 Dr. Krishan said that southzone cannot interfere with working of state zone. On this Dr. Ashok Reddy said then it was wrong on part of the south zone.

Dr. Umashankar last time I gave permission to use hall in IMH by giving at Rs. 1000/- for one EGBM fora member. Dr. Sona Kakkar emailed national secretary IPS, that Dr. Umashankar manipulated the election process. Then he read out the said email. He said he wants to know the extent of damage of his reputation because of this and action should be taken against the member. Dr. Shridhar Raju said Dr. T. P. Sudhakar said let every branch take care of their matter if it is not possible then south zone will interfere.

Dr. Umashankar said that email was sent by Dr Vinay and later withdrawn his email afterword which was regarding five members.

Dr. George Reddy said that her action should be condemned and request she should give explanation to the body. Dr. Keshav Rao thanked the EC to stand behind him and fight for prestige of IPSTSB.

Dr. Keshav Rao sir said that his work was made easy by Dr. George reading in minutes. Dr. Sona Kakkar raised her hand for 2 members committee than put WhatsApp message which implies Telangana medical committee along with IPSTSB were responsible for suspension, then there were lots of members from all over India pointing fingers to working at Telangana.

He added If she was not satisfied, she should have approached the Tribunal as she was part of AGBM. AGBM has proposed a three-member committee she should have waited for its decision or waited for one year but she directly went to IPS because one of her former bosses was a friend with IPS bosses. The kind of communication is unknown but IPS bosses wrote that she should be installed and when her membership is suspended (medical council) then she should remove. This was impractical and not logical and humiliating.

Then according to her there was proposal in which there were two options given not three options. But in the minutes, there we had three options which are

- i. Three-member committee
- ii. All out Sona Kakkar to continue
- iii. Dissolve the elections. thus, she misleads.

Then there was a letter from national IPS secretary having 5 members committee in which Dr. Umashankar was there, but to this Dr. Sona Kakkar sent her objection email and first email was withdrawn

At Lucknow meeting she said that suspend the IPSTSB, while she is not here.

Dr. Naresh was mastermind behind her and he should explain

Dr. Naresh refused to answer the question on this, Dr. Keshav Rao said what kind of person he is.

Dr. Ashok Reddy said both the secretary of south zone and IPS secretary were acting as bosses. But the president or the EC should direct them and the secretary should follow orders.

Dr. Naresh has wasted time with lot of senior members and despite warning he was still passing WhatsApp messages raising questions and asked his membership to be removed.

Dr. Shridhar Raju read today's messages by Dr. Naresh in IPS south zone branch WhatsApp group in which he accused the president and secretary acting out of vengeance. Dr. Shridhar Raju asked Dr. Naresh about his post, President asked Dr. Naresh to answer about his WhatsApp messages. Dr. Naresh showed papers to which Dr. Mayurath Reddy Sir said to come to point.

Dr. Naresh said till July 19 he was upset that constitution was not followed in AGBM while forming three-member committee. On July 14

Dr. Sona Kakkar addressed email to south zone secretary, president IPSTSB and Dr. George Reddy and that was denied by Dr. George Reddy.

Dr. George Reddy said that whether the mails were diverted to Dr. George Reddy or the Secretary and stop diverting. Dr. Keshav Rao Sir said that Dr. Naresh should answer specific questions for which notice was sent to him for his termination.

Dr. Mayurnath Sir again asked Dr. Naresh to answer specific questions. Dr. Naresh said he was searching for email and email was addressed to office bearers of IPSTSB. Dr. George said on this that was not the way to write the letter and asked who were the office bearers to whom email was sent. Dr. Naresh on this said the mail to president. Dr. George said whether to answer to this, Dr. Keshav Rao said that Dr. Naresh should come to the point on this Dr. Naresh answered after seeing this south zone and national reacted that state branch didn't react. Dr. George said on this Dr. Sona Kakkar sent personal notes to him on which he said that please put mails to general secretary and then he will forward to EC. On this she had sent two attachments. And he said that he can show evidence. Dr. Mayurnath Reddy President said that why other members were not sent the email including the president. Dr. Naresh said there was some spelling mistake on which Dr. George said there were none and not to misguide the house. Dr. Shridhar Raju said when Dr. Sona Kakkar is not there, it is no point in discussing her issue Dr. Mayurnath Reddy and Dr. Keshav Rao told Dr. Naresh to answer specific question about his actions , Dr. Naresh said on June nomination was scrutinized. Dr. Mayurnath sir said to call meeting to order. Dr. Minhajzafar Nasirabadi told Dr. Naresh who came up the stage to sit down since Dr. Mayurnath was calling the meeting to order. Dr. Naresh alleged that the president is hearing selective story and not his side of the story. Dr. Mayurnath Reddy said him not to deviate and give his explanation Dr. George asked Dr. Naresh to answer who was the two psychiatrist who want of Telangana medical council and asked to write against Dr. Sona Kakkar as he alleged. Dr. Keshav Rao sir said that it is on Dr. Naresh's website that he is a cheater, while he was calling others cheater. Dr. George said that Dr. Naresh is playing tricks. Dr. Mayurnath said in the letter unparliamentary words were used against members. On which Dr. Keshav Rao Sir said can he read the question Dr. Kishan advised listen to the question and answer, Dr. Naresh said that he can also show that they have used unparliamentary language. he said that he is ready to forgive on which Dr. George said who is he to forgive. Dr. Mayurnath said that when question is asked about him why he is talking about Dr. Sona Kakkar. Dr. Minhaj told Dr. Naresh to sit down. president was calling meeting to order. Dr. Keshav Rao said that we asked him why his membership should

not be terminated. On which Dr. Naresh said that this is not into preview of this AGB, Dr. Keshav Rao said that both Dr. Naresh and Dr. Sona Kakkar acted against IPSTSB and what action should be taken against them. Dr. Raghuram tried to say something.

Dr. Raghuram Reddy Sir said what happened to letter to 31 December. IPS has recommended into it is sent to south zone and south zone has sent letter to IPSTSB and if there is any other matter, to this Dr. Keshav Rao said even after that he has sent messages and Dr. George said that today also he has commented.

Dr. George said that Dr. Sona Kakkar voted for three-member committee and then walked off and started taking to IPS national, this created the problem. Dr George said that these people are telling something here and telling other things (totally opposite) outside, and the example Dr. Naresh has got in south zone WhatsApp groups that Dr. Keshav Rao and Dr. George have made it and done it, what did south zone think of them. Also started 5-member committee group with whose permission he started the group IPSTSB 5-member committee and why he is not committing this.

Dr. Naresh said that IPSTSB group was created and who has given permission to start the group and why he was not included on which Dr. George said that he left the group on himself and Dr. George didn't remove him, Dr. Naresh said that the group was started in August and he was included in Jan. Why was the delay?

Dr. George said he left the group and if he asks then he would be added, on which Dr. Naresh said that why his inclusion was delayed and this was done deliberately and he left the groups and march.

Dr. Keshav Rao sir said that he is a traitor Dr. Naresh said that Dr. Keshav Rao is not Indian and he should be in the hall.

Dr. Mayurnath Sir asked opinion of senior members Dr. Ashok Reddy. Dr. Ashok Reddy said question were not answered and at least now Dr. Naresh should answer the question.

Dr. Chandrashekar sir said as an observer he saw that problems arose between individual members, who were also members of IPSTSB and also lead the conflict between IPSTSB and IPS national. Dr. Naresh writing to members and not to the body. Dr. Naresh said he was writing to south zone. Dr. Chandrashekar said that writing two members went to Telangana

State Council that was contention. He didn't say that IPSTSB went 2nd thing that explanation should be explained and not discussed across board let both the party submit evidences to IPSTSB body and let the body decide. Dr. Kishan Sir told that President and EC can form a committee. Dr. Keshav Rao sir said that Dr. Sona kakkar and Dr. Naresh should be suspended and then Dr. Naresh should be removed from EC. Dr. Kishan said that Dr. Chandrashekar sir said EC and the president can make a 3-member committee and examine ad censure. Dr. Naresh said it should be impartial committee and opposite party should also be censured if found guilty. Dr. Shridhar Raju Sir said Dr. Naresh has objected 5 members committee too appointed by National body and he want listen to new committee . Dr. Keshav Rao said that let Gen. body can take decision but Dr. Kishan sir said that committee can take decision.

Dr. Minhaj read out the message today put on WhatsApp by Dr. Naresh that he has already forgiven and forgotten but till date I didn't hear from them and they have not included him in group or website this is o behest of two member who stage managed the whole thing and self felicitation. Dr. Kishan said we cannot examine every thing and get his too documented and let them submit to EC. Dr. Minhaj continued reading the post 'he is willing to forgive these people who betrayed and misplaced constitution approved by IPS south zone and IPS national intentionally and willfully. Dr. Naresh on this said that was contention on this Dr. George asked who replaced it and again misguiding. Dr. George said that national secretary IPS has not sent constitution till now to him.

Dr. Naresh said that he was deliberately not asked to attain the meeting, Dr. Kishan sir said that Dr. Chandrashekar and Dr. Raghuram Reddy has given guidelines that EC should appoint impartial committee by the President.

The President called for closure of Session.
